Stonebridge Partners announces the formation of a new small-cap team to invest in businesses that have EBITDA of \$2-\$6 million. Led by Stonebridge partner **Tim Fulham**, this initiative will expand and complement Stonebridge's principal focus on businesses with \$7-\$20 million of EBITDA.

"We're seeing many opportunities in this part of the market and we believe Tim and his team are well-suited to working with entrepreneurial management teams," said **Stonebridge Managing Partner Mike Bruno**. Tim joined Stonebridge in 2014 and has more than 35 years of experience investing in family-owned companies seeking a partner to help recapitalize their businesses and augment the effectiveness of their management.

Operating partners **Ted Anderson** and **Brook Reece** bring to the team extensive experience in niche manufacturing, engineered products, and lean manufacturing. The Stonebridge office based in White Plains, New York, will assist the team with support for due diligence and financing.

The team is looking for investment opportunities across a broad spectrum of industries, including but not limited to test & measurement, automation, and specialty fabrics and seals. They will also consider specialty manufacturers with the following attributes:

- Products with meaningful engineering content and a solid position within their respective markets.
- Branded products
- Attractive gross margins (>35%)
- Experienced management team
